SUCHAO MOPOKU

Full-Stack Web Developer

suchao0101@gmail.com 064-257-8322 github.com/Suchao001 Mae Sai, Chiang Rai, Thailand

Computer Science graduate (GPA 3.73) with about 1 year of hands-on experience across two internships and a part-time developer role. A fast learner who adapts quickly and likes owning work end to end, from understanding the user to shipping in production. Looks for the simplest solution that works, and never ships AI-generated code without understanding it first. Ready to grow into someone the team can hand a whole feature to.

EXPERIENCE

Empty Space · emptyspace.co May 2026 – Oct 2026 · 6 mos

Developer (Part-time)

- Delivered 100+ tickets (PRs up to #556) in a team codebase for an interactive-story platform, using Claude Code and Codex and reviewing generated code before merge.
- Built the story creator and player: node-based canvas, audio / video / image upload, slug-based public player, publish lifecycle.
- Built the admin system from design foundations (Storybook) to real pages: users, roles, invitations, content indexes.
- Fixed security issues (story HTML sanitization, escaped aliases in notifications, upload ownership) and shipped image cropping, responsive delivery and Open Graph metadata with tests.

Business Competitive Intelligence Co., Ltd. Nov 2025 – Mar 2026 · 4 mos

Frontend Developer Intern

- Built and fixed features in Angular for an accounting application, connecting UI to backend logic and calculation features from issue tickets.
- Migrated and redesigned the company website to Next.js.
- Built an admin panel for visitor analytics and article management.

Chiangmaizone Dot Com Limited Partnership Mar 2025 – May 2025 · 2 mos

Web Developer Intern

- Built CRUD web apps and admin systems with role-based access in CodeIgniter 3 (MVC).

PROJECTS

KhuiAnime — anime listing & discussion Personal project · khuianime.com (live)

- Shipped end to end in 7 days with Claude Code: design tokens + Storybook, an anime directory for Thai viewers, per-anime and per-episode community discussion, and a community feed.
- Deployed on a Linux VPS (Docker Compose, Caddy) behind Cloudflare on its own domain; images on Cloudflare R2 via CDN; CI/CD with GitHub Actions (tests, migration drift check) and a deploy script with health check and rollback.

Next.js · TypeScript · PostgreSQL · Drizzle · Cloudflare R2 · Docker · GitHub Actions

khuianime.com

Goodmeal — AI Meal Planner Final-year project

- Expo / React Native app for personalized meal plans, food logging and nutrition summaries, with a Next.js admin, Express + MySQL API and JWT auth.
- AI features with the OpenAI API: generates meals and eating plans from a prompt, plus GoodChat, a nutrition chat assistant.

React Native · Next.js · Express · TypeScript · Tailwind CSS · MySQL

github.com/Suchao001/Goomeal · github.com/Suchao001/goodmeal-admin

SKILLS

Frontend	React, TypeScript, Next.js, Tailwind CSS, Angular, Nuxt, React Native
Backend & Database	PHP (CodeIgniter, MVC), Node.js / Express, MySQL, PostgreSQL, Drizzle ORM
AI-assisted dev	Claude Code, Codex, Antigravity, MCP, OpenAI API (GPT)
Tools & Workflow	Figma to code, Design system / components, Python, Playwright
DevOps & Infra	Docker Compose, Linux VPS, Cloudflare (DNS, R2), GitHub Actions CI/CD
Strengths	Self-directed learning (built and shipped KhuiAnime solo), ownership (100+ tickets at Empty Space), clear written docs (product briefs, tickets, dev logs), team communication, video content creation

EDUCATION

B.Sc. Computer Science — Chiang Rai Rajabhat University 2022 – 2026

Faculty of Digital Technology · GPA 3.73

LANGUAGES

Thai: Native · English: Intermediate
